# Design how the future looks

Our School of Design is ranked in the top 50 worldwide for art and design according to the 2020 QS World University Rankings.

Benefit from industry partnerships. Dive into experiences with the Design Factory Melbourne and the Innovation Precinct. Create, thrive and emerge as a career-ready graduate with our diverse range of courses – from industrial design to photography.

# Your next gen\_now upgrades

## Guaranteed real industry experience

At Swinburne, your education is more than reading; with our Work Integrated Learning program, it's doing. Start building your résumé with placements, internships and industry-linked projects while you study. Real industry experience is guaranteed in all our bachelor degrees that commence in 2021 and beyond.

## Double degrees

Double degrees are a great way to broaden your study experience and are highly respected by employers. They combine two areas of study and, on completion, you'll be awarded two degrees. A double degree is generally only one year longer than a single degree.

Consider combining your Design degree with a degree in another study area by studying:

- Bachelor of Design/Bachelor of Business
- Bachelor of Design/Bachelor of Media and Communication

## Pathways to a degree

### UniLink diplomas

UniLink diplomas are equivalent to eight units of study (typically one year of full-time study) and can provide a pathway to the second year of a related bachelor degree.

These courses are an option for students who miss direct entry to a degree or who would benefit from a more supportive style of learning.

### Vocational education

Diplomas and certificates are vocational qualifications that provide practical teaching and skills for work. A vocational qualification could prepare you for your first job, help you excel in your current job or take the first step in a career change.

Successful completion of a vocational qualification may also allow you to progress to another qualification with advanced standing.

## Scholarships

The Vice-Chancellor's Excellence Scholarship is awarded to students in recognition of academic excellence. Recipients will receive \$5000 per annum for the normal duration of their chosen degree, plus a one-off payment of \$2000 towards an international study experience.\*\*

Swinburne also offers scholarships to students from indigenous backgrounds, students suffering from financial hardship and students who have relocated from regional areas to study.

For a full list of scholarships, including value and eligibility criteria, visit [swinburne.edu.au/scholarships](https://swinburne.edu.au/scholarships)

\*Design Institute of Australia

\*\*International study experiences are dependent on government travel guidelines.
